

Narrative Report  
Yellowstone Presbytery  
Budget & Finance Committee  
March 2-3 Presbytery Meeting

Our report has one attachment, which serves to supplement this narrative. The attachment is the January 31, 2012 Treasurer's report.

The Committee would also like to inform our constituent congregations that 2012 has seen a dramatic decrease in the amount of pledges received for the mission/program portion of Presbytery's budget. While we are extremely grateful for the support we have received in years past, we do need to let you know that if this trend continues it will significantly impact the Presbytery's ability to provide services in the program area. We understand that many congregations are striving to use their mission dollars in a manner that is closer to home and we applaud your efforts. We just ask that should monies become available that you reconsider your pledges so that Presbytery can continue its programming which benefits all of us.

Respectfully submitted,

Dan Holland, Moderator  
Budget & Finance Committee  
406-388-0878
