- **How** did Jesus and his followers *make disciples* and turn the world upside down?

When the words [of Christian belief and faith] truly live, they live in the lives of the [disciples] who live by the Word of God... the early Christians living in a pagan society... lived a "shared life distinguished by community practices centered in the One God"... a way of life together that contrasted significantly from that of the larger society...a way of life that is born of the Word of God and is shared as a gift of love to all in need.
