

Description for Workshop #2

Listen, Lean In, Let Go:

Living Witness in the communities & congregations we're found

Facilitated by: Daniel Triller & Sarah Tunall

This workshop is an opportunity to explore creative ways to engage the community – within and outside the church – to do ministry and be witnesses as transforming agents of Jesus.

We will share experiences we've had with growing discipleship opportunities, building partnerships with local organizations, and intergenerational connections using the tools of listening to the Spirit and people, leaning into God's nudgings, and letting go of control – or sometimes of the idea.

Bring your ideas, challenges and unique circumstances so together we can brainstorm, empower, and encourage with one another!
