

The Spirit of the Disciplines, by Dallas Willard: "The spiritual disciplines are those methods by which, enabled by the Holy Spirit, Christians can actually be transformed. Those practices through which individuals can (ital. his) become like Christ in character and in power and thus realize our highest ideals for well-being and well-doing,... Ordinary individuals... can become, through the grace of Christ a love-filled, effective, and powerful community. This is the heart of the New Testament message."

Christians who with determination Intentionally pursue Spiritual Formation and Discipleship grow. By the power of the Holy Spirit, they change, and they change the world around them out of love for God and for those whom God loves.

We prayerfully dream of a presbytery of disciples in which some passionately pursue new ways and forms of creative, God-connecting worship. In which some, God-burdened by the lost and hurting in their communities, reach out as God's hands and heart, sharing and embodying the Gospel; In which some, so aroused by the Holy Spirit for justice that they throw themselves in the Holy Spirit into making change in the systems and culture around them. In which some, deeply contemplative in nature, pursue a knowledge and love of God until they, full of the Holy Spirit, grow and overflow with love for God and God's world. In which some, compelled by the Spirit with a passion for intercessory prayer, see God's reign come and God's will be done more and more on earth as it is in heaven. Which one of these best describes your gift and passion in Christ? Or has the Spirit inspired in you another dream?

And we prayerfully dream of a presbytery in which all of us, rooted and grounded in love for God and one another (Ephesians 3:17) encourage each other, especially those with Spirit-Gifts different from our own, in mutual discipleship to the Glory of God. In this way we grow. In this way we are transformed as the Body of Christ and are God's witness to the world.

Our presbytery vision statement points us in this direction.

The Visioning Process: For the past five years or so, the presbytery has been engaged in visioning and implementing the new vision. We have changed practices. We have broadened and deepened relationships. We have adapted some of our processes. Now we are trying to reframe our structure to better position the presbytery to pursue the vision. This last has proved to be the most challenging of the four elements of change.

- a. We have met and supported the vision teams through their work and continue to.
- b. Please pay careful attention to the vision structure team's report.
 - a. We have determined that the presbytery is not willing to significantly alter the presbytery structure and patterns at this time.
 - b. However, financial considerations will force us to do so, indicating that God has a new direction for us – an adapted way of being presbytery.
